

DUC258Z

18V Brushless Top Handle
Chainsaw 250mm

Product Statement

18V Brushless Top Handle Chainsaw 250mm

The 18V LXT Brushless Cordless 250mm (10") Chain Saw delivers the ideal combination of power, balance, and manoeuvrability for pruning and professional tree maintenance. Based on Makita's proven 23cc-class design, it features a lightweight top-handle configuration with an updated battery layout that positions the battery sideways rather than vertically. This improves weight distribution and optimises the centre of gravity, reducing arm fatigue and enhancing control during extended use.

The brushless motor delivers fast acceleration and smooth cutting performance, while intelligent load sensing helps maintain efficiency by automatically adjusting output under heavy loads. Equipped with variable speed control, adjustable automatic chain lubrication, and both mechanical and electric brakes, the DUC258Z provides excellent cutting performance, safety, and user comfort.

Built with XPT (eXtreme Protection Technology) and an ergonomic soft-grip handle, it is designed to perform reliably in demanding outdoor conditions.

Product Overview

DUC258Z

Lightweight

Adjustable
Chain oil

Better centre
of gravity

Climbing Ring

250mm Bar

Captive nut

Chain Catcher

Chip distributor

Product Specifications

UC033GZ01

Bar Length	250mm
Chain Speed	24.0m/s
Standard chain pitch / gauge	0.325" / 0.043"
Max Output Power	97dB
Oil tank capacity	140mL
Equivalent Petrol Performance	23cc
Dimensions (L x W x H)	286 x 519 x 194mm
Skin weight	1.8kg
Weight with battery	3.0kg (With BL1860)
Voltage	18V

Lightweight Design – Weighing only 3.0kg with a 6.0Ah battery, the new design reduces user fatigue and improves manoeuvrability, making one-handed operation easier and more comfortable.

Adjustable Chain Oil Flow – Allows the operator to adjust the chain lubrication rate to suit different cutting applications, ensuring optimal oil delivery and extended chain life.

Improved Centre of Gravity – The redesigned battery mounting system positions the battery horizontally rather than vertically, providing better balance and reducing strain during operation.

Climbing Ring – Enables quick and secure attachment to an arborist harness or tool belt, improving convenience and safety when working at height.

250mm Bar Length – A compact and manoeuvrable bar length ideal for pruning and cutting solid branches, while providing easy access in tight spaces.

Captive Bar Nuts – Specially designed sprocket cover nuts remain attached to the chain cover, preventing loss during chain adjustments or guide bar replacement.

Chain Catcher – Enhances operator safety by helping to intercept the chain in the event of a derailment or breakage.

Chip Distributor – Redirects wood chips away from the cutting area to reduce debris build-up, improve visibility, and support smoother cutting performance.

Advantages

POWER

EQUIVALENT TO A 23cc PETROL CHAINSAW

LIGHTWEIGHT

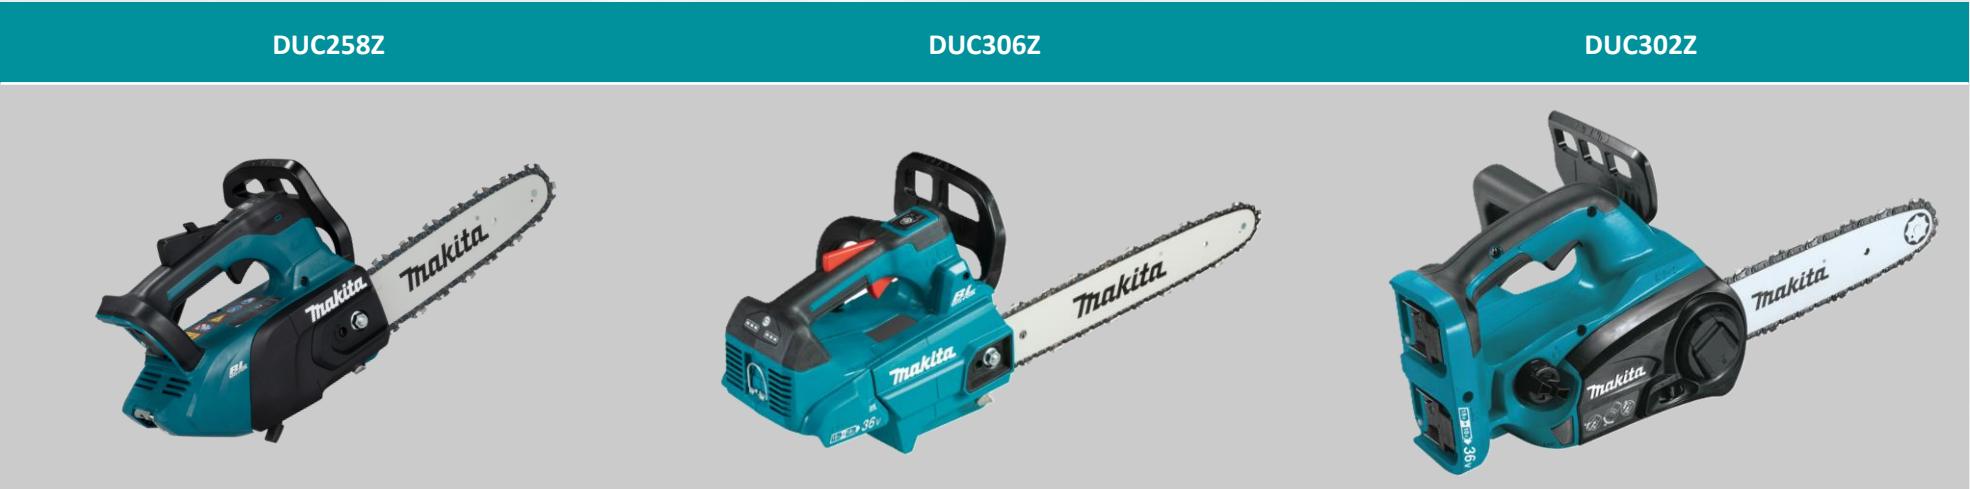

3.0KG WITH A 6.0AH BATTERY FOR LONGER OPERATION AT HEIGHT

MANEUVERABILITY

SIDE ENTRY BATTERY DESIGN IMPROVING BALANCE AND CENTRE OF GRAVITY FOR BETTER CONTROL

Our Range

Bar Length	250mm	300mm	8.3m/s
Chain Speed	24.0m/s	20m/s	300mm
Standard chain pitch / gauge	0.325" / 0.043"	0.325" / 0.043"	0.325" / 0.043"
Max Output Power	97dB	95dB	74dB
Oil tank capacity	140mL	200mL	85mL
Equivalent Petrol Performance	23cc	30cc	-
Dimensions (L x W x H)	286 x 519 x 194mm	556mm	316mm (Without bar)
Skin weight	1.8kg	3.5kg	3.5Kg
Weight with battery	3.0kg (With BL1860)	4.7kg (With BL1860B)	4.1kg (2x BL1860)
Voltage	18V	18Vx2	18Vx2
